

Florin-Traian Zadorojneac

Date of birth: 26/10/2004 | **Place of birth:** Galați, Romania | **Nationality:** Romanian |

Phone number: (+40) 744102557 (Mobile) | **Email address:** zadorojneacflorin@gmail.com |

Address: Galați, Romania (Home)

● ABOUT ME

Final-year student in Automation and Applied Informatics with a strong focus on software development and practical problem solving. Experienced in building web applications using Python, JavaScript, React, TypeScript and Node.js, with knowledge of SQL, Git/GitHub and application deployment. Comfortable learning unfamiliar technologies independently, using documentation and AI-assisted development to break complex problems into smaller, solvable tasks. My engineering background also includes industrial electrical systems, automation, control systems and practical work in a shipbuilding environment. Seeking a remote junior software or engineering role where I can contribute, learn quickly and grow into a highly capable engineer.

● PROJECTS

PERSONAL SOFTWARE PORTFOLIO

Responsive web portfolio showcasing software projects, technical skills and live project demonstrations.

Technologies: HTML, CSS, JavaScript.

Live: <https://florinzadorojneac.vercel.app/>

SYNCLOGISTICS — WAREHOUSE MANAGEMENT SYSTEM

Full-stack web application for warehouse management, covering inventory, inbound/outbound orders, suppliers and customers. Implemented the application logic, REST JSON API and data management using Python, Flask and SQLite, with an HTML/CSS/JavaScript frontend.

Live demo: <https://synclogistics.pythonanywhere.com/>

FLEET PAYMENT REPORT GENERATOR

Web application for processing and normalizing Bolt and Uber data exports, calculating individual driver payments and automatically generating PDF and Excel reports.

Technologies: Python, Flask, pandas, openpyxl, reportlab.

Live demo: <https://fleetreports.pythonanywhere.com/>

● WORK EXPERIENCE

INTERN — MARINE ELECTRICAL INSTALLATIONS – ROYAL VAN DER LEUN ROMANIA – 25/05/2026 – 15/06/2026 – GALAȚI, ROMANIA

- Participated in commissioning activities, including systematic testing and troubleshooting of defects.
- Installed cables and electrical components onboard ships according to project specifications.
- Performed circuit-continuity checks and validated system operation against technical requirements.
- Worked within an industrial engineering team while following procedures, safety requirements and deadlines.

TECHNICAL OPERATOR – DP WORLD — TEMPO-TEAM AGENCY – 15/07/2025 – 15/09/2025 – TILBURG, NETHERLANDS

- Processed picking and packing operations accurately in a high-volume logistics environment.
- Managed inventory using handheld scanners and warehouse management systems.
- Followed customs, safety and quality procedures while meeting delivery deadlines.

ELECTRICAL ENGINEERING INTERN — MARINE SWITCHBOARD ASSEMBLY – ROYAL VAN DER LEUN ROMANIA – 01/06/2025 – 01/07/2025 – GALAȚI, ROMANIA

- Gained practical experience with industrial electrical systems and low-voltage switchboard assembly.
- Interpreted technical schematics and applied electrical safety standards.
- Performed cable routing, component positioning and circuit-continuity testing.
- Developed practical problem-solving, precision and teamwork skills in an engineering environment.

● **EDUCATION AND TRAINING**

01/10/2023 – CURRENT Galați, Romania
BACHELOR’S DEGREE — AUTOMATION AND APPLIED INFORMATICS Dunărea de Jos University of Galați

Website <https://www.ugal.ro/>

01/09/2019 – 01/06/2023 Galați, Romania
BACCALAUREATE DIPLOMA — MATHEMATICS-INFORMATICS Dunărea High School, Galați

Website <http://www.dunarea-info.ro/>

06/06/2022 Galați, Romania
IT ESSENTIALS CERTIFICATE Cisco Networking Academy

● **LANGUAGE SKILLS**

Mother tongue(s): **ROMANIAN**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **SKILLS**

Programming languages: Python, JavaScript, TypeScript, C++ | Web development: HTML, CSS, React, Node.js, REST APIs | Development tools: Git, GitHub, VS Code, Terminal/CLI, Linux | Engineering & automation: MATLAB, Simulink, PLC fundamentals, Arduino, Control Systems | AI-assisted development: Claude Code, AI-assisted software development | Databases: SQL, SQLite | Deployment: Vercel, PythonAnywhere
